Note

On Sunday December 24th 1848, while setting in my Starboard boat, My thoughts on the Barque Ann Maria of Fall River, which vessel my oldest son was one of her Crew when she foundered South of the River of Plata, I saw a Bottle past the ship with a calk in it and a small string attached to the neck of the bottle, I have every reason to believe that there was a paper in the bottle put there by some distress Mariner, Blowing fresh at the time we past and and drawing towards night, Before we could stop the ship and get a boat down, it being so small an object we lost sight of it, Lat 26. 45 S Long 68. 15 W
